Dream Machine -- Syncro Westfalia (4WD) van - \$39000 (Santa Barbara)

This baby is the ultimate adventure rig. Drive to Alaska or Baja in style with all that you need to live comfortably and more. We've recently upgraded the entire engine to a new Subaru, highly dependable, fuel-efficient engine. The van comes with upgraded 15" wheels with BF Goodrich Long Trail tires, which will take you anywhere you can imagine. This thing can climb any hill in any condition and handles like a dream in snow and ice. Get into the backcountry and camp this winter with the comfort of an adjustable propex heatsource heater. It runs off the propane tank (brand new tank in the last year) and can keep you warm and comfy while you camp no matter how cold outside. We also replaced the stock VW refrigerator (notoriously small, and difficult to light and operate) with an energy efficient truck fridge, which is at least 1.5 times as spacious in nearly half the space. Don't worry about running out of battery juice, as the van comes with an easy-to-store solar charger for when you are camping. Many other amenities as listed below. We hate to part with it, but have a child who is now entering school, and we don't quite get out like we used to. We would love to see it go to a good home, where it is appreciated and used!

*2.2 Subaru engine (with Kennedy Engineering) with ~ 105K miles

*SMOG legal in CA

*Rear diff locker and decoupler

*Audi Big brakes

*New shoulder seat belts in Rear compartment

*Custom 'latch' points for child seat in rear
