Westy Syncro Vanagon - \$37000 (bellingham)

86 Westy syncro, professionally installed Subaru ej22 with less than 20K miles, van was converted years ago this is a fresh Colorado rebuilders long block, kennedy plate and small car 5qt oil pan, you can still check the oil from the license plate, Tranny was rebuilt less than 1000 miles ago, at the same time, the front end was done, front axels done, old man emus all around, tires are a year old, AC works and does not bog the engine down like the waterboxers did, decoupler and rear locker, VC is working as designed, high intensity head light kit, custom wood door panels, 3 window canvas, 1000watt inverter, dual battery, decent sound system, no seam rot. Just pulled all the windows, dealt with some minor rust, replaced the seals and had the whole van repainted. Sweet looking and running van but more than I really need. I would consider the right vanagon as part trade. The pictures are pre paint, so it looks even better now. Matt 3603801695
